

# General Chapter 2013 Ladywell

## CHAPTER Briefing

### Number Six

As the **second week of the Chapter** begins, the Communications Team would like to thank you for the responses received in relation to the Briefings. One of the comments we received said *".....I know we can't be given confidential information but.....give us something."*

*We asked a couple of the Chapter Members to respond to this request.*

At this stage in the Chapter we have nothing concrete yet. This is because the very nature of **consensus building** means we are in a **process** of:

**listening**

**reflecting**

**Sharing what has been heard**

**integrating**

*and beginning to formulate where we believe the Spirit is calling the Congregation into the future.*

*During the evaluation at the end of each day, there is an over-riding sense of confidence in the facilitators, the process and the trust among us.*

*So just keep praying the **future direction** will come to birth!*
