**San Damiano crucifix**  
hangs in our 'Chapel Cloister'.  
Whilst depicting our particular  
Franciscan mission and charism, it  
also reminds us of the time Francis  
heard the figure of Christ on the  
crucifix telling him that his  
vocation was *'to build the Church'*.

**Mary nurturing  
Christ –  
expressing our  
charism of Divine  
Motherhood of  
conceiving,  
birthing and  
nurturing Christ  
in our lives.**

**“No room in the inn.”**

Together on our Franciscan Journey

A watercolor-style illustration of a church and houses on a hillside. On the left, a large, leafy tree stands prominently. In the center, a church with a steeple is visible, surrounded by several houses with gabled roofs. The scene is set on a grassy hillside with more trees in the background. The overall style is soft and artistic.

It is so very important. It really is just to use at all having just a cup of tea and one slice of bread for breakfast. When a young nurse, I thought that this was all that was necessary, but it really is very important to start the day with a good meal. I know that many of you supplement this with a couple of biscuits during the morning, but even that is not sufficient. Those who suffer from this current complaint are often tired by lunch-time, yet only take a small lunch, consisting of Buns, of food or less. By the time evening comes there is complete loss of energy and the tummy pains are only then relieved by a cooked meal.

Now that Easter is over, I want you all to make a special effort and fight this epidemic. Do see, you young Mothers, that the children do get good meals - lots of big cooked breakfasts, dinner in the middle of the day and a well-balanced supper. I am sure that if you do this the symptoms will pass and you will all regain your old energy. Do try this now, won't you?
